📍 Drottninggatan 53, Stockholm, Sweden

SUMMARY

An accomplished professional with a broad range of skills and experience in the field of web Frontend and Backend.

My extensive knowledge of front-end technologies such as HTML, CSS, Bootstrap, JavaScript, and popular frameworks like React and back-end technologies like Node.js, PHP and Python allows me to build applications that are efficient, optimized, and esponsive. I have rich experience working on a variety of web projects, including e-commerce sites, web applications, and content management systems.

My approach to development is rooted in delivering high-quality, maintainable code that solves complex problems. Collaboration is key to my development philosophy and I am a team player who can work seamlessly with cross-functional teams to deliver projects on time and within budget.

I am seeking a challenging opportunity to leverage my skills and experience in a dynamic and collaborative environment to drive innovation and create impactful products. Ready for an opportunity to use my skills to grow your business and revenue exponentially.

EXPERIENCE

Senior Full Stack Developer

Citizen

📅 10/2021 - 12/2022 📍 New York, US
